DETAILED ACTION

1. The amendment received on 3/20/09 has been entered.

Response to Arguments/Amendments

2. The amendments to the specification have been accepted.
3. In light of applicant's amendment the 35 USC § 101 rejection cited toward claims 1, 4, 6-11, 14-20, 22, 24-30 is withdrawn. However, it is noted that claims 30-31 and 34-49 have not been amended and are directed towards non-statutory subject matter: "a computer program product" which should be embodied on the computer readable storage medium (included in the claim language) in order to overcome the 35 USC § 101 rejection. As a result, claims 30-31 and 34-39 remain rejected.
4. Claims 1, 4, 6-11, 14-20, 22, 24-31 and 34-49 have been examined.

Claim Rejections - 35 USC § 101

35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

5. Claims 30-31 and 34-49 remain rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter.
6. The details of the rejections are offered in the Response to Arguments/Amendments". Amending claim 30 indicating "a computer program

Art Unit: 2434

product" being "stored on the computer readable storage medium" would overcome the 35 U.S.C. 101 rejection.

Appropriate correction is required.

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

7. Claims 1, 4, 6-11, 14-19 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

In particular, claim 1 has been amended to indicate that "said network interface comprises a processor and a first memory". However, the specification does not support the newly added limitation. In fact commonly in the art, a network interface (i.e. NIC card or abstract object defining communication channel) does not have memory. Perhaps, the newly amended limitation is simply a typographical error and the claim should read "A network device comprising, wherein said network interface comprises a network interface, a processor and a first memory ...".

Applicant should provide appropriate support for the newly amended limitations. (In case it is typographical error, as suggested above, the claim language should be amended.)

Appropriate correction is required.

Conclusion

The timely filed amendment addressing the 101 issues as indicated above as well as the amendment to claim 1 addressing the 35 USC § 112 issue would be entered, providing that the clarification/amendment does not raise new issues, and claims would be in condition for allowance.

Applicant correcting the typographical error would be considered as amendment not raising new issues. Similarly the specification support of the intended meaning of the newly presented claims would be considered as the clarification not raising new issues.

THIS ACTION IS MADE FINAL.

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
